CLIN	Supplies/Services	Description
------	-------------------	-------------

CLIN	Supplies/Services	Description
0274AA	Embarkable Seat	This is an uplift CLIN which can only be ordered and applied to CLINs 0201 or 0202. Embarkable means that the seat will be periodically deployed and used in an expeditionary or field environment where the workstation is subjected to rough handling and climatic extremes. Embarkable seats shall be capable of interfacing with and being reconfigured for compatibility with IT-21 shipboard networks and the Marine Corps Tactical Network (MCTN). Reconfiguration to interface with IT-21 or other non-NMCI (e.g. Disembarked) network is not the responsibility of the Contractor. Worldwide support for deployed equipment and software to meet the service level is provided by DoN. Reconfiguration for return and interface with NMCI is the responsibility of the Contractor. The unit of purchase for these service categories shall be referred to as a "seat". The Contractor shall provide two non-classified user accounts for each embarkable workstation seat procured. The NMCI Contractor shall supply spares to facilitate deployed operations. The Contractor shall use as a basis for evaluation of required spares and ILS support the projected equipment as described in Attachment 1. This CLIN may not be ordered in quantities materially larger than 5% of ordered quantities as of 30 Sep 2010.
0275	Classified Remote Access Via Broadband Connections	This service allows users a higher bandwidth alternative to standard CLIN 0218 dial-up classified remote access service by allowing users to access the classified NMCI data network using a secure broadband connection and leverages the Talon device and SECNET 54. Use of this service is limited to locations approved by the appropriate ODAA and will be the responsibility of the Government. Government will be responsible for providing the following: a. A Type 1 encryption device for installation at the NMCI regional NOC (PRLH) b. The required TALON KOV-26 Type 1 Encryptor and software for each user of this service c. Talon product hardware/software maintenance d. Spare Talon encryption hardware at locations where the Government determines appropriate.
